

The Team Theme Song

Melody by Tommy La Verdi & Peter Michael
Lyrics by the Standards Norway Team

So far north where fjords and rivers run
Mountains white with snow
The land of midnight sun

Sky so blue, water fresh and clear
Keep the nature green
and let us do our share

I know my job is often just a one man show
but with Livelink I know I am not alone

At ISO, at ISO
We're qualified to standardize almost everything you know
at ISO, at ISO
and we regulate all that you create, we don't like saying no
at ISO

ISO - is the future of the world
There is lots of hope and challenge on the way
ISO - friends, together have fun
Let us reach our goal: Making standards run

This is cool, this is fun
and it works for everyone
This team shall make a better world

At ISO, at ISO
We're qualified to standardize almost everything you know
at ISO, at ISO
and we regulate all that you create, we don't like saying no
at ISO

We are Standards Norway, we welcome you today
Our dreams are colourful and true

at ISO, at ISO
We're qualified to standardize almost everything you know
at ISO, at ISO
and we regulate all that you create, we don't like saying no
at ISO
