Just a sampling of the new products you’ll find at www.astm.org or inside ASTM’s 2011 catalog:

Now Search Standards and Papers!
ASTM Standards and Engineering Digital Library
Search across standards and technical papers at the same time using one, integrated search platform.
It includes:
• 12,000+ ASTM standards
• 1,500 E-books
• 50,000 Technical Papers and Chapters
COUNTER Compliant MARC Records Available
For more information, see page 30.

New Search Feature!
BOS Volumes on CD-ROM Now Easier to Use!
Each volume of the Annual Book of ASTM Standards on CD-ROM now sorts the standards by ASTM Committee. Use one of these two options to quickly find the standard you need:
• Alphanumerically by designation
• By the ASTM Committee that developed the standard

Look for These Icons Indicating New Options
Indicates that an ASTM book is also available as an E-book
Indicates a video describing an ASTM product is available online

New Print+PDF Option Available
Save 25% when you purchase both the print version and the PDF of any ASTM book.

Permission to Photocopy or Share
ASTM Content Now Available Online
Using ASTM’s website, customers can now conveniently and quickly get authorized permission to share content or make copies of ASTM’s copyrighted material. Both pay-per-use and annual license agreements are available. Just visit www.astm.org/COPYRIGHT and follow the simple directions.

New Products
• ASTM Custom Portals p. 20
• ASTM Standards for Protective Coating and Inspection p. 27
• ASTM Standards in Building Codes: 47th Edition p. 21
• ASTM Standards for Fire Hazards in Oxygen Systems p. 34
• ASTM Standards for Managing Climate Change and Greenhouse Gases p. 31
• ASTM Standards for Welding: 2nd Edition p. 42
• ASTM Standards on Environmental Site Characterization: 4th Edition p. 32
• ASTM and U.S. EPA Standards for Cyanide Analysis, Sampling, and Mitigating Interferences p. 58
• Crude Oils: Their Sampling, Analysis, and Evaluation (Manual 68) p. 47
• Significance of Tests for Petroleum Products: 8th Edition (Manual 1) p. 51
• Intensive Quenching Systems: Engineering and Design (Manual 64) p. 47
• Quenching and Cooling, Residual Stress and Distortion Control (STP 1523) p. 55

About ASTM International
For over a century, ASTM standards have been used worldwide to improve quality, safety, and design. Developed by more than 30,000 experts from over 100 countries, ASTM’s 12,000 standards cover nearly 140 industries, including steel, petroleum, building construction, plastics, textiles, and the environment.
Combined with hundreds of technical publications and journals, written by leading industry experts, plus testing and training programs, you’ll find an organization that meets today’s global standardization needs.

712 Standards • Print or CDs: $1,066 • Online Basic: $1,279 • Online+: $1,492

### SECTION 4 - CONSTRUCTION

**Volume 04.01**

- Cement; Lime, Gypsum: $204
- Concrete and Aggregates: $219
- Road and Paving Materials; Vehicle-Pavement Systems: $291
- Roofing and Waterproofing: $175
- Chemical-Resistant Nonmetallic Materials, Vitrified Clay Pipe, Concrete Pipe, Fiber-Reinforced Cement Products; Mortars and Grouts; Masonry; Precast Concrete: $289
- Thermal Insulation; Building and Environmental Acoustics: $328
- Building Seals and Sealants; Fire Standards; Dimension Stone: $280
- Socks and Ribs (I): D420-D5876: $225
- Socks and Ribs (II): D5878-Latest: $296
- Wood: $253
- Building Constructions (I): C60-C850: $392
- Building Constructions (II): C850-Latest; Sustainability; Property Management Systems; Technology and Underground Utilities: $252
- Geosynthetics: $167

**SPECIAL PRICE FOR SECTION 4 (Volumes 04.01-04.13)**

2,307 Standards • Print or CDs: $2,576 • Online Basic: $3,091 • Online+: $3,606

Online Basic: $448; Stock #: V0503
Online+: $507; Stock #: VX0503

Volume 05.04
Petroleum Products and Lubricants (IV): D6973–L
1,490 Pages; 120 Standards
Available June 2011
Print or CD: $309
Stock #: S050411
Stock #: CD050411
Online Basic: $491; Stock #: V0504
Online+: $573; Stock #: VX0504

SECTION 6 Paints, Related Coatings, and Aromatics

Volume 06.01
Paint–Tests for Chemical, Physical, and Optical Properties; Appearance
1,476 Pages; 246 Standards
Available Feb. 2011
Print or CD: $296
Print ISBN: 978-0-8031-8520-7
Stock #: S060111
CD ISBN: 978-0-8031-8521-4
Stock #: CD060111
Online Basic: $358; Stock #: V0601
Online+: $417; Stock #: VX0601

Volume 06.02
Paint–Products and Applications; Protective Coatings; Pipeline Coatings
1,234 Pages; 246 Standards
Available Feb. 2011
Print or CD: $262
Print ISBN: 978-0-8031-8523-4
Stock #: S060211
CD ISBN: 978-0-8031-8524-1

The Complete Collection

A complete database of all 12,000+ ASTM standards on DVD and now online.

WITH YOUR SUBSCRIPTION TO THE ASTM STANDARDS SOURCE™ COMPLETE COLLECTION YOU RECEIVE:

- Access to full-text PDFs of ASTM's 12,000+ standards
- Powerful searching tools — search by word, phrase, designation, title, index term, scopes, or referenced documents for all standards
- Technical support service
- An option to receive quarterly updates
- Limited site license to print out standards

Access to What You Want, When You Want It.

Option 1

Individual Document Access

Pay as You Go >>
Download individual standards as needed 24 hours a day, 7 days a week. Just log on to www.astm.org and search for the standard. These are available for informational purposes only.

Redlined, Historical, and Withdrawn Standards
In addition to active standards, you can now download redlined, historical, and withdrawn standards. Redlined Standards are PDF documents that provide a quick and easy way to compare all of the changes between the active standard and the previous version. Historical Standards are versions of ASTM standards that have been superseded by a more current version. Withdrawn Standards are ASTM standards that have been discontinued by the ASTM Sponsoring Committee responsible for the standard. These are available for informational purposes only.

Option 2

Bulk Document Individual Subscription

Pay in Advance >>

Now Available: Choose from Active, Redlined, Historical, and Withdrawn Standards
Download, view, and print your choice of ASTM’s 12,000+ standards over a 12-month period. Obtain access conveniently by password.*

*Note: You do not need to select your standards when you order your subscription, choose as you go.

Option 3

Individual Volume Access

In addition to simplifying access and speeding delivery, individual volumes of the Annual Book of ASTM Standards Online enable users to:

- Perform searches of each volume and across volumes, assisting users to quickly find the standards they need and be aware of other related or referenced standards.
- Access the latest standards posted weekly to the ASTM website, eliminating the need to track and purchase standards published throughout the year after the book and CD-ROM formats are available. See individual volumes for prices (pages 16–28).

Subscription Information >>
Subscriptions will last for 12 months after the purchase date and will include all active standards.
For an additional fee, subscriptions can also include access to Redlined, Historical, and Withdrawn standards.

To order your subscription; choose as you go.

Please Note: Only the purchaser/registered email user has authorized access.

Option 4

Enterprise-Wide Access

Every department, division, or branch office of your organization, regardless of its location, can have access to ASTM standards right at users’ desktops.

This service gives you maximum flexibility and continuous worldwide access to the most up-to-date ASTM standards.

No Passwords or User IDs Required >>
With Enterprise-Wide Service, you never need to remember a password or user ID. All you do is provide ASTM with an IP address list. You decide who should have access—from one IP address to a range of addresses or a domain name.

ASTM gives you a special URL that takes your users right to the standards. No delays. No order forms. Just fast access. Convenient annual fee depending on your estimated usage.

Choose From Active, Redlined, Historical, and Withdrawn Standards

New! ASTM Custom Corporate Portals

Powered by Citation®

Provide your entire staff with instant, online access to a collection of standards tailored by you to fit the unique needs of your organization. In addition to the convenience of quick and up-to-date access, your staff will also have the ability to:

- Link these standards
- Add notes, images, and attachments for others to view
- Compare revisions via color-coded highlighting
- And more!

ASTM Custom Corporate Portals provide you with the information you need and the ability to share it, archive it, and apply it faster, better, and cheaper than ever before.

For more information, contact Jim S. Thomas, ASTM International, (215) 431-2411; jsthomas@astm.org, or visit www.astmproducts.com/custom_collection.html

New Edition!

Print, DVD, and Online

ASTM Standards in Building Codes
47th Edition

Get the tools you need to design and construct buildings that satisfy most of the international code requirements established by the International Code Council (ICC). Over 1,300 ASTM construction specifications, practices, and test methods, compiled from the Annual Book of ASTM Standards, enable you to:

- Meet most international code requirements
- Stay informed and remain competitive
- Specify the right material for the job
- Understand the significance and use of the standards
- Speak a common language that the entire industry recognizes

Provides easy access to the LATEST VERSIONS of the ASTM standards referenced by:

- The International Codes published by ICC®
- National Building Code of Canada - National Research Council Canada
- Uniform Plumbing Code and Uniform Mechanical Code - International Association of Plumbing and Mechanical Officials
- MASTERSPEC®
- BSD SpecLink®
- NFPA5000TM – Building Construction and Safety Code™
- SPECTEXT® Master Guide Specifications

Companion CD-ROM to
Manual 18

Moisture Control in Buildings: The Key Factor in Mold Prevention: 2nd Edition

Editors: H.R. Trechsel, M.T. Bomberg

Twenty-eight comprehensive chapters focus on the major issues involved in the process of moisture resistive construction. The latest edition covers fundamentals, applications, construction principles, recommendations, and implementation.

Three new chapters have been added to make this the ultimate publication on moisture control:

- Design Details and Practice
- Quality Management in Design and Construction
- Development of New Methods for Assessment of Moisture-Originated Damage

Improved and Expanded! ASTM Standards for Whole Building Functionality and Serviceability: 3rd Edition

Get 32 of the latest ASTM standards for defining the functional requirements and rating the capabilities of a building or facility.

250 Pages (2009)
Soft Cover: 8.5” x 11”; Price: $139
Stock #: WB0G2009

New Edition! ASTM Standards for Sustainability in Building

Get 151 of the latest ASTM specifications, test methods, and practices that address sustainability or aspects of sustainability relative to building, including sustainable design, construction, and operation of buildings. It provides all of the ASTM standards referenced by the:

- Federal Green Construction Guide for Specifiers as of January 2010
- International Green Construction Code (IgCC) as of the Public Version Draft March 2010
- Green Globes® green building rating programs as of March 2010

This valuable resource supports the growing demand for sustainable building in the public and private sector. Such demand includes numerous national and local “green building” programs around the world, including Canada, China, Denmark, Finland, France, Germany, Japan, Netherlands, Norway, Sweden, the United Kingdom, and the United States of America.

New Edition! Available in Print or CD-ROM

ASTM Standards for Fence Materials and Products: 11th Edition

This new edition provides the latest fencing and fencing-related standards for all aspects of the fencing industry.

Forty-eight ASTM standards cover:

- Chain-link and wire fence fabric
- Construction and installation
- Fences for playgrounds, sports fields, sports courts, and other recreational facilities
- Fittings and protective coatings
- Industrial and commercial horizontal slide gates
- Fencing materials used in detention and correctional facilities
- Design and fabrication of wood fencing
- And more!

250 Pages (2010); Soft Cover: 8.5” x 11”; Price: $164
Print Stock #: FENCE10
CD-ROM Stock #: FENCECD10
Twenty comprehensive chapters on each main section of the standard plus an overview cover:
• Background of ASTM C94/C94M
• Referenced documents
• Basis of purchase
• Ordering information
• Materials
• Tolerances in slump
• Air-entrained concrete
• Measuring materials
• Batching plant
• And more!

ASTM Standards for Maintenance, Repair and Operations in the Chemical Process Industry

This online edition features 210 ASTM standards for the chemical process industry. Topics cover:
• Steel, stainless steel, and related alloys
• Iron castings
• Metallic-coated iron and steel products
• Nonferrous metals and alloys
• Copper and copper alloys

There are also several helpful tables, which include:
• Light metals and alloys
• Reactive and refractory metals and alloys
• Fasteners
• And more!

These standards are compiled from three volumes of the Annual Book of ASTM Standards and developed by nine ASTM technical committees.

Annual subscription includes revisions made throughout the year:

DS71
ISOCCORRAG International Atmospheric Exposure Program: Summary of Results
Authors: D. Knottova, K. Kreislova, S.W. Dean
The largest collection of atmospheric corrosion and environmental data ever published in a simple source! Thirteen countries participated in this 12-year exposure program with a total of 53 exposure sites, including industrial, urban, rural, marine, and coastal locations in temperate, tropical, and arctic zones. Included are tables showing the location of each site and the type of exposure. It includes:
• Details of the exposure program, including the organizations that completed the work and locations of the exposure sites
• Actual mass loss results that were obtained for coupons that were exposed along with duration of exposures
• Environmental data collected during the exposure, including time of wetness, average temperatures, and sulfation data
• And more!

DICTIONARY and DIRECTORIES

ASTM Online Dictionary of Engineering Science and Technology
Get nearly 80,000 terms and powerful interactive features in ASTM’s new online edition of the ASTM Online Dictionary of Engineering Science and Technology. In addition to a clear and precise explanation of all technical terms contained in ASTM’s 12,000+ standards, the new online edition provides you:
• Terms and definitions not commonly found in most dictionaries
• A listing of all the ASTM standards that reference each term, as well as the ASTM committee that developed the standard
• Hot-links from each standard designation to the full scope of the standard
• Hot-links from the ASTM committees to specific information on these committees
• Powerful searching tools—search by main committee; phrase; keyword; designation number; or alphabetically
The definition of each term was written by technical experts in their field and reflects the sense in which that field uses the term.
Annual Subscription: $199

List Your Lab Today!
ASTM International Directory of Testing Laboratories
If you want to expand your business, this is the place to list your laboratory.
ASTM’s Online Directory of Testing Laboratories provides the extensive information buyers of lab services need in selecting a laboratory. Users can search by standard designation, type of test performed, products tested, or keyword.
What are the benefits of listing?
• Your lab is searchable from the directory and the ASTM standards database making it easy for thousands of users to find you
• The Directory is used by 30,000 buyers every month looking for lab services
• You can list up to 50 specific standards that you use for testing
• Your lab’s website and e-mail are hot-linked from the Directory
• You can update your listing online throughout the year

What information are you able to list?
The Directory lists locations, branches, and a general description of the capabilities of testing laboratories that perform services for a fee. In addition to the basic information, such as e-mail, phone, fax, and website, information is provided on:
• 50 specific tests conducted
• Testing services
• Lab services
• Equipment, testing capabilities, applications
• Materials and products tested
• Lab accreditations and evaluations
• Staff
How to list your laboratory
To list your company’s services, just go to www.astm.org/labs and click on “Add Listing.” You can then view a sample listing, download a questionairre before adding your information, or add your lab information which will be available online immediately. If you have any questions or comments please email direct@astm.org.
Annual listing fee: $135.
Note: These laboratories are not certified by ASTM but are published as a service to ASTM members and customers.

Add a link to your brochure or a sponsored listing for only $75

PUBLICATIONS, PRODUCTS, AND SERVICES
Available Online Only!
List Your Services Today!
ASTM Directory of Scientific and Technical Consultants and Expert Witnesses
Expand your business, list your services today! This high-traffic resource is used by companies searching for services like yours. You can provide detailed information about your services and choose from over 300 categories to list in.

Why List in the Online Directory?
• Increase your visibility to prospective clients
• Your email and website are hot-linked from the Directory for immediate sales inquiries
• Companies looking for your services can search by subject area, consultant’s name, or geographical location
• ASTM’s prestigious technical community is an ideal venue in which to expand your market
• You can update your information at any time

What information are you able to list?
The Directory lists consultants and expert witnesses, as well as each company's location, description, consulting services, educational background, and projects. It includes basic contact information, such as email, phone, fax, and website, details are provided on primary consulting fields, skill of expertise, status as an expert witness, and other services provided.

How to list your services
To list your company’s services, just go to www.astm.org/consultants and click on “Add Listing.” If you have any questions or comments, please email direct@astm.org.

Annual listing fee: $135
Note: These consultants are not certified by ASTM but are listed as services to ASTM members and customers.

Add a link to your brochure or a sponsored listing for only $75

Now Search Standards and Papers!
The ASTM Standards and Engineering Digital Library
THE ultimate online technical library!
Users of The Digital Library are now able to search across standards and technical papers at the same time using one, integrated search platform.
The new ASTM Standards and Engineering Digital Library is unprecedented in its convenience and comprehensiveness providing over 30,000 papers and 50,000 pages of information. The library provides a self-service environment, where users can instantly download as much or as little information as they need.

Included in the continuously growing Library is:
• 12,000+ ASTM Standards
• 1,500+ E-books
• 50,000 Technical Papers and Chapters

Flexible Purchasing Options
Whether it’s just a few journal papers, a series of books in a particular area, or all of the Special Technical Publications (STPs) ever published, there’s a purchasing option that’s right for you.

Just choose from the following offerings:
• Complete ASTM library of standards, books, journals, and papers
• Entire library of STPs
• Entire library of monographs
• Entire library of journal articles
• Individual papers, chapters, and books

Powerful Search Capabilities Speed Your Research Efforts
Researchers will be able to uncover the essential information they need buried within hundreds of thousands of pages, thanks to the Library’s robust full-text search. Key word and phrase searching will allow users to pinpoint papers they might never have found otherwise. The Library also allows users to perform fielded searches, such as searching for papers by title, author, or draft of publication.

New!
ASTM Standards for Managing Climate Change and Greenhouse Gases
This exclusive new ASTM publication provides five documents that give all industries a more general guideline for monitoring and reporting GHG emissions.

• E2718 Guide for Disclosing Climate Change Liabilities
• E2753 Guide for Disclosure of Environmental Liabilities
• Plus a FREE copy of the SEC Guidance document These standards cover:
• Basic management strategies that focus on business risk and cost-effective solutions in response to greenhouse gases and related issues
• Institutional (legal) and engineering (physical) controls for GHG reductions, impacts, and adaptations
• Consistent and comprehensive disclosure of material financial liabilities or exposures attributed to climate change
• And much more!

50 Pages (2010); 8.5” x 11”; Price: $75
ISBN 978-0-8031-8676-7; Stock #: GHG11

Adjunct to New E2600-10
Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions
This adjunct is provided in a 30 pack. It is a questionnaire that represents only Appendix X3 of the new standard. It is necessary to refer to the full standard prior to using this questionnaire.

Price: $30; Stock #: ADJE2600

A Powerful Online Database!
Environmental Due Diligence Web Portal
Powered by Citation®
The Information Gateway for Environmental Professionals!
All the ASTM and Federal environmental due diligence standards you need PLUS unmatched, user-friendly features enable you to:
• Work Seamlessly—link directly between ASTM standards and applicable full-text regulations
• Track Changes—compare revisions to critical documents side-by-side with color-coded highlights
• Collaborate—make notations directly in the standards, share information online, and send “community-emails” without ever leaving the document you’re working on
• Integrate Company Information
• Accomplish more!

Includes online access to these standards, practices, guides, and regulations:
• E2600 Vapor Encroachment Screening on Property Involved in Real Estate Transactions
• E1368 Visual Inspection of Asbestos Abatement Projects
• E1527 ESA: Phase I ESA Process

ASTM Standards on Environmental Site Characterization
4th Edition

A vital resource for use in compliance with local, state, and federal regulations.

The latest edition of this popular ASTM collection features over 180 ASTM guides, practices, and test methods for geophysics and environmental site characterization, drawn from the work of ASTM committees:

- D18 on Soil and Rock
- D19 on Water
- D34 on Waste Management
- E47 on Biological Effects and Environmental Fate
- E50 on Environmental Assessment, Risk Management, and Corrective Action

These standards are vital for site characterization plans used to satisfy state, local, and federal regulators during investigations of hazardous waste sites and evaluations of contaminant migration in the environment. In addition, they provide valuable guidance for use with CERCLA, RCRA, and Petroleum Release Site investigations and for developing accelerated and expedited site characterization procedures.

This is a key resource for environmental professionals, including planning and biological engineers, health and safety specialists, consultants, contractors, and laboratory personnel, as well as government agencies, such as the EPA and Department of Health and Human Services.

ASTM Standards on Environmental Site Assessments for Commercial Real Estate: 5th Edition

The EPA has determined that ASTM standard E1527 is in FULL COMPLIANCE with the requirements for conducting AAI specified in the EPA rule, “Standards and Practices for All Appropriate Inquiries (AAIs)”.

This edition includes the latest versions of ASTM E1527 Practice for Environmental Site Assessments: Phase I ESA Process and the EPA AAI document (40 CFR Part 312) with forward and table of contents, as well as ASTM E1528 Practice for Limited Environmental Due Diligence: Transaction Screen Process.

75 Pages (2006); Soft Cover: 8.5” x 11”; Price: $90
ISBN: 978-0-8031-4254-1
Print Stock #: E50CPD06
CD-ROM Stock #: E50CPD06CD

STEMS and Pesticides

E50 on Waste Management

Price $105
220 Pages (2009); Soft Cover: 8.5” X 11”

Five of the latest ASTM standards will help you comply with federal and state environmental cleanup regulations and tools and guidance to address problems with the corrective action process when there is a release of petroleum into the environment.

Five of the latest ASTM standards will help you comply with federal and state environmental cleanup regulations for petroleum contamination.

Passport to Steel
powered by CASTI

Comprehensive Source of Global Standards

- Includes steel data from ASTM, AFNOR, API, ASME, SAC, DIN, BSI, CEN, CSA, JIS, and ISO.
- Includes E1700 Chinese GB Steels.
- Steel data of more than 83,000 steels, including more than 8,000 coated steels.
- New Simple Search and faster and easier.
- Find comparable steel standards from Standards Development Organizations around the world.
- Access free reference information.

Faster Than Ever

Find the steels data you need in seconds with 10 robust search options, including over 26 product forms and 9 alloy groups.

Timely and Reliable

A team of engineers and experts is continually revising and expanding the database.

ASTM Standards for Fire Hazards in Oxygen Systems

Twenty-three ASTM standards address fire hazards in oxygen systems, including safe practices in design, materials selection, storage, handling, and operations. This is a vital resource for those involved in the production or use of liquid or gaseous oxygen or oxygen-enriched gas mixtures, including engineers, scientists, technicians, purchasing agents, plant managers, safety professionals, and those who supply, design, or manufacture hardware for oxygen services. An ideal companion CD to ASTM’s Manual 36 on the Safe Use of Oxygen and Oxygen Systems: Handbook for Design, Operation, and Maintenance 2nd Edition (for more information on Manual 36, see column to the right.)

Monograph 5

Black Box Data from Accident Vehicles: Methods of Retrieval, Translation, and Interpretation

Author: W. Rosenbluth

Monograph 5 introduces detailed methods of analyzing information from automobile EDRs that accumulate and store data from specific sensors and actuators which can be analyzed to help investigators determine what the vehicle was doing before, during and after an impact event. The methods discussed are illustrated with specific examples of the parsing, translation, and interpretation of raw downloaded hexadecimal EDR data into engineering units useful to engineering investigators. Includes specific spreadsheet formulations to accomplish the importing, parsing, translation and interpretation of EDR data into useful engineering units.

STP 1515  
Fatigue and Fracture of Medical Metallic Materials and Devices  
2nd Volume  
Eleven peer-reviewed papers address the unique thermal and mechanical properties of shape memory alloys (SMA’s), and metallic medical materials and devices. Shape memory devices such as valves, actuators, clutches, and gaskets are proposed for monitoring units, drive systems, and repair schemes. Biocompatible implanted medical devices rely on the hyperelastic response of these unique materials.  
Topics cover:  
• Metallurgical basics of martensitic transformations and fatigue behavior of nitinol  
• Crystallographic basis of deformation and fracture in nitinol  
• Finite element analysis of stents  
• Arterial deformation assessment  
• Standard coronary arterial geometry  
• And much more!

Fatigue and Fracture Mechanics: 37th Volume  
JAI Guest Editors: S. Ralluri, M. McGaw, A. Neimitz  
Thirty-nine peer-reviewed papers provide the latest research on fatigue and fracture mechanics. Topics cover:  
• Advanced Master Curve approaches to the EURO fracture toughness data set  
• Analysis of fracture mechanisms of ferritic steels at low temperatures  
• Weibull stress model to predict effects of weld strength mismatch on cleavage fracture toughness  
• Non local multiaxial fatigue approach to account for stress gradient effect on fatigue strength  
• Effects of microstructure on incipient fatigue and fretting crack processes in Al-Cu-Li alloys  
• Importance of residual stresses and surface roughness regarding fatigue of titanium forgings  
• Fatigue crack growth simulation in components with random defects  
• And much more!

• Basic metallurgy of steels chapter, including heat treatment systems, including steel names and steel numbers
• Synopsis of North American and EN steel designations
• Introduction to European (EN) standard steel designation systems, including steel names and steel numbers
• Latest designation changes from DIN, BSI, and AFNOR to their new EN designations
• Introduction to European and North American standard steel designation systems, including steel names and steel numbers
• Greater number of steel comparison groups to help readers find more accurate international cross-references
• Designation changes from AFNOR, BSI, and DIN to their new CEN designations
• Detailed table of contents and 4 subject indexes
• Criteria for comparing steels, including examples of the comparison process and an updated list of comparison rules
• Explanation and examples of designation systems of ASTM, SAES, UNS, and CSA
• Introduction to International (EN) standard steel designation systems, including steel names and steel numbers
• Latest designation changes from DIN, BSI, and AFNOR to their new EN designations
• 840 Pages (2007)

Passport to Steel

Powered by CAST!
The most complete and up-to-date steel data on the web today!
The Simple Search feature combined with the most technically accurate and current data available make Passport to Steel the most powerful steel comparisons database on the web today.

With 1700+ Chinese GB steels and 80,000+ steels from 11 SDOs, Passport to Steel is more complete and up-to-date than any other resource.

Consider these additional features available ONLY in Passport to Steel:
• Simple Search is fast and easy
• Publication date of 80,000+ steels is indicated
• Status of each standard (current, replaced by, withdrawn) is included
• Indicates ASTM Redlined Data
• View all search results on one page to analyze data
• Over 15,000 coated steels from ASTM, ASME, BSI, EN, JIS, and ISO
• New data uploaded regularly

Includes steel data from 11 SDOs including: ASTM, AFNOR, API, SAE, DIN, BSI, CEN, CSA, JIS, ISO, and ASME. You can easily search by:
• Standards Organization
• Standard Title—search by keywords and phrases
• Standard Designation
• Steel grade, class, type, symbol, or name
• Steel Number
• UNS Number
• Product Form (22 selections)
• Alloy Group (9 selections)
• Chemical Compositions (36 elements)
• Mechanical Properties
• Tensile strength
• Yield strength
• % Elongation
• % Reduction in Area
• Hardness
• Impact Strength

Finding Comparable Steels from Around the World Made Easy
Using the built-in “Search for Comparable Steels” option, based on written rules for comparison, makes finding similar steels from other countries quick and easy. You can also customize your own search to find all matching steels with any other searching parameters you choose.

Access to your Own Research Team
Can’t find the data you need in Passport to Steel? We’ll find it for you! Two powerful options allow you to request the addition of “New Data” or to ask for “Technical Assistance.” In both cases, we do the necessary research to find your data. We’ll even find new standards that replace old outdated standards.

Timely and Reliable
The timeliness and reliability of the data in Passport to Steel make it second-to-none thanks to a team of engineers and technical experts continually studying changes to the standards and revising and expanding the database. These engineers, who are members of ASTM, NACE, SAE, ISO, and other SDOs, make Passport the most credible resource on the web today.

Easy to Use Results Page
The easy-to-understand results page allows you to easily sort, print or copy, and paste results into your favorite program, such as Microsoft Excel®, to save an electronic copy of the data.

Reference Center
Filled with state-of-the-art information, the Reference Center is an online library that includes:
• Terminology standards documents
• Technical articles from leading engineering journals
• Chapters from some of the most popular engineering books
• Lists of current and withdrawn steel standards of ASTM, JIS, ISO and all EN standards that have replaced former national standards from DIN, BSI, and AFNOR.
• Glossary of metals terminology in four languages (English, French, Spanish, German)
• Hardness conversion engine
• Interactive periodic table of the elements

NONDESTRUCTIVE TESTING

New! DVD Only
Reference Radiograph E2660
Standard Digital Reference Images for Investment Steel Castings for Aerospace Applications

Sixteen digital reference images, previously only available as film reference radiographs (ASTM E192), are now available from ASTM International.

This 3 DVD set consists of the 16 digital files, software to load the desired format, and specific instructions on the loading process.

Disk one includes the install program, the ungraded plate of Discrete Discontinuities graded series for Foreign Material Less Dense in three thicknesses (1/8 inch, 3/8 inch, and 3/4 inch), and graded series of Gas Holes for 1/8 and 3/8 inch.
Disk two includes the graded series for Gas Holes at 3/4 inch and for Dendritic Shrinkage at all three thicknesses.
Disk three includes graded series of Sponge Shrinkage for all three thicknesses as well as graded series of Shrinkage Cavity and Filamentary Shrinkage, both illustrated in 3/4 inch material.

3 DVD Set: Price: $690; Single Site User Stock #: RRE2660

PACKAGING

New! Print or CD-ROM
ASTM Standards for Flexible Barrier Packaging Design

This vital resource provides ASTM F2097 Standard Guide for Design and Evaluation of Primary Flexible Packaging for Medical Products, as well as all commonly-referenced standards.

Fifty-two ASTM standards cover:
• Safety
• Chemical properties and particulate

NEW! DVD Only
ASTM Standards on Hazardous Substances and Oil Spill Response 3rd Edition

Fifty-seven ASTM standards address the latest research in oil spill recovery applications and ecological considerations for the use of chemical dispersants and containment methods.

(2009); Price: $157
ISBN: 978-0-8031-8158-8 Stock #: HAZARDCD09

PETROLEUM

New! Manual 68
Crude Oils: Their Sampling, Analysis, and Evaluation

Authors: H.N. Giles, C.D. Mills

This one-of-a-kind, comprehensive manual covers a combination of subject materials related to crude oil sampling, quality determination, and evaluation.

It provides an assessment of which test to use when several options exist and offers a broad scope of information at a level that can be understood by technical and non-technical personnel.

Eight chapters deal with:
• Obtaining representative samples for tanks, pipelines, and marine vessels
• Understanding the complex chemistry of crude oils
• Selecting test methods best suited to obtain physical and chemical data
• Issues that may develop during transportation, storage, and refining that may impact product quality
• And much more!

75 Pages (2010); Soft Cover: 8.5” x 11”
Price: $87
ISBN: 978-0-8031-7014-8 Stock #: MNL68

OIL SPILL RESPONSE

CD-ROM Only
ASTM Standards on Hazardous Substances and Oil Spill Response

87 Pages (2010); Soft Cover: 8.5” x 11”
Price: $313
ISBN: 978-0-8031-6829-9 Print Stock #: FLEXIBLE09
CD-ROM Stock #: FLEXIBLECD09

PETROLEUM

New! Manual 64
Intensive Quenching Systems: Engineering and Design

Authors: N.I. Kobasko, M.A. Aronov, J.A. Powell, G.E. Totten

The primary focus of this new ASTM manual is on highly-forced heat transfer—the Intensive Quenching (IQ) processes.

13 comprehensive chapters examine:
• Thermal and metallurgical design basics of high-strength steels
• Transient nucleate boiling and self-regulated thermal processes
• Critical heat flux densities and characteristics of heat transfer during film boiling
• Convective heat transfer
• Generalized equations for determination of cooling time for bodies of any shape during quenching
• Regular thermal process and Kondratjev form factors
• Stress state of steel parts during IQ
• Steel quenching in liquid media under pressure
• Steel superstrengthening phenomenon
• Intensive steel quenching methods
• Design of industrial quenching systems
• Review of practical applications of IQ methods
• Inverse problems in quench process design

252 Pages (2010); Soft Cover: 8.5” x 11”
Price: $120
ISBN: 978-0-8031-7019-3; Stock #: MNL64

New! DVD Only
Zirconium Production: Retrospective 2

New! DVD Only
Zirconium Medal. They address all aspects of zirconium including history, ore refinement, production, fabrication, mechanical properties, and physical properties.

Sixteen peer-reviewed, award-winning papers provide insights into the desired format, and specific instructions on the loading process.

Sixteen digital reference images, previously only available as film reference radiographs (ASTM E192), are now available from ASTM International.

This 3 DVD set consists of the 16 digital files, software to load the desired format, and specific instructions on the loading process.

Disk one includes the install program, the ungraded plate of Discrete Discontinuities graded series for Foreign Material Less Dense in three thicknesses (1/8 inch, 3/8 inch, and 3/4 inch), and graded series of Gas Holes for 1/8 and 3/8 inch.
Disk two includes the graded series for Gas Holes at 3/4 inch and for Dendritic Shrinkage at all three thicknesses.
Disk three includes graded series of Sponge Shrinkage for all three thicknesses as well as graded series of Shrinkage Cavity and Filamentary Shrinkage, both illustrated in 3/4 inch material.

3 DVD Set: Price: $690; Single Site User Stock #: RRE2660

Zirconium Production: Retrospective 2

New! Retrospective 2
Zirconium Production and Technology: The Kroll Medal Papers—1975-2010

This one-of-a-kind publication provides 31 peer-reviewed, award-winning papers from recipients of the ASTM William J. Kroll Zirconium Medal. They address all aspects of zirconium including history, ore refinement, production, fabrication, mechanical properties, and physical properties.

Sixteen peer-reviewed papers provide insights into the desired format, and specific instructions on the loading process.

Sixteen digital reference images, previously only available as film reference radiographs (ASTM E192), are now available from ASTM International.

This 3 DVD set consists of the 16 digital files, software to load the desired format, and specific instructions on the loading process.

A Powerful Online Database
ASTM International Biodiesel Standards Web Portal

Powered by Citation®
One-Stop Shopping for the Latest Biodiesel Fuel Standards

- Link directly between ASTM Standard D6751 for Biodiesel Fuel Blend Stock (B100) for Middle Distillate Fuels, all referenced ASTM documents, and key government documents
- Compare revisions to any document with color-coded highlights denoting changes
- Make notations directly in the standards and share your analysis online with others
- Integrate company practices and policies into the standards, preserving and passing on expertise

The ASTM Biodiesel Standards Web Portal enables you to:

- Link directly between ASTM standards and applicable full-text regulations
- Compare revisions to critical documents side-by-side with color-coded highlights
- Make notations directly in the standards
- Accomplish more!

Subscribe Today!
Go to www.astmproducts.com or contact Jim Thomas, ASTM (215) 431-2411 or jsthomas@astm.org.
Annual Subscription, Single User: $249

Get online access to the latest version of ASTM D6751 and all 54 referenced ASTM documents.

Now also includes REVISED specifications for:

- D975: Diesel Fuel Oils—used for an and off road diesel applications; revised to include an allowance for up to 5 percent biodiesel
- D396: Fuel Oils—used for home heating and boiler applications; revised to include an allowance for up to 5 percent biodiesel
- D7467: Diesel Fuel Oil, Biodiesel Blend (B6 to B20)—covers finished fuel blends of between 6 (B6) and 20 (B20) percent biodiesel for on- and off-road diesel engine use

Test Methods for:
- D93: Flash-Point by Pensky-Martens Closed Cup Tester
- D130: Corrosiveness to Copper from Petroleum Products by Copper Strip Test
- D2500: Cloud Point of Petroleum Products
- D3242: Acidity in Aviation Turbine Fuel
- D6450: Flash Point by Continuously Closed Cup Tester

Specifications for:
- D975: Diesel Fuel Oils
- D6751: Biodiesel Fuel Blend Stock (B100) for Middle Distillate Fuels

Practices for:
- D4057: Manual Sampling of Petroleum and Petroleum Products

Guides for:
- D6469: Microbial Contamination in Fuels and Fuel Systems

Manual 5: Aviation Fuel Quality Control Procedures

Fourth Edition

This edition, extensively updated, provides a complete explanation of 33 common procedures used by fuel handlers to assess and protect aviation fuel quality.

New to this edition:

- Rewritten API gravity section now includes the latest information on metric density
- Fuel sampling techniques section was improved to keep up with the changes in ASTM 4306
- Revised micro-separator section
- New and vitally important section on flushing new aviation fuel hoses
- Updated filtration equipment section reflects changes in the industry regarding the API/IP/EI filtration standards

Completely rewritten section on microbial contamination detection reflects the changes in the oil company and airline industry standards, changes in test equipment, and aircraft maintenance practices.

And much more!

57 Pages (2009); Soft Cover: 8.5" x 11" Price: $77
ISBN: 978-0-8031-7008-7
Stock #: MNL5-4TH

Manual 51: Distillation and Vapor Pressure Measurement in Petroleum Products

Fourth Edition

This ASTM manual deals with practical information regarding the practice of distillation and vapor pressure measurement of petroleum products, as well as the significance of distillation and vapor pressure data in various petroleum products.

Twelve comprehensive chapters cover:

- Introduction and brief historical background
- Distillation measurement of atmospheric pressure
- Distillation measurement at reduced pressure
- Simulated distillation measurement
- Vapor pressure measurement
- Online measurement of distillation and vapor pressure
- Distillation and vapor pressure data in crude oil
- And more!

160 Pages (2008); Soft Cover: 8.5" x 11" Price: $87
ISBN: 978-0-8031-6227-3; Stock #: MNL51

Second Printing!

Manual 50: Characterization and Properties of Petroleum Fractions

Second Printing!

Nine comprehensive chapters cover:

- Introduction
- Properties of pure hydrocarbons
- Characterization of petroleum fractions
- Characterization of crude oils and reservoir fluids
- PVT relations and equations of states
- Thermodynamic relations for property estimations
- Applications: estimation of thermophysical properties
- Applications: estimation of transport properties
- Applications: phase equilibria calculations

Micro-Nanotribology

Monograph 7

Physics and Chemistry of Micro-Nanotribology
Editors: J. Luo, Y. Hu, S. Wen
Monograph 7 presents the principles and applications of tribology in micro-nano-scale and discusses some of the challenges faced by tribologists since the development of new manufacturing techniques for electronic products.
Topics include:
• Experimental methods and measure techniques
• Fluid film lubrication
• Molecular film lubrication
• Gas lubrication in nano-gap
• Mixed lubrication in nano-scale
• Applications of tribology in magnetic record systems
• Chemical mechanical polishing of ultra-smooth surfaces

ASTM Standards on Lubricant Chemistry
A Companion CD to Manual 59
Get 60% of the most frequently used ASTM standards referenced in Manual 59.
To view the complete list of standards on this CD, go to www.astm.org and enter MNL59CD09 at the Site Search.
Stock #: LUBECDD9

Biofuels
JAI Guest Editors: L. Honary, C. Conconi
Thirty-seven peer-reviewed papers cover many unique and comprehensive areas of biofuels. Topics are widely varied and include the use of industrial corps and algae, enhancing existing esterification processes, and new advancements.
717 Pages (2011); Soft Cover: 6.5” x 9”; Price: $151
ISBN: 978-0-8031-3411-9; Stock #: STPI477

Second Printing!

Manual 59
A Comprehensive Review of Lubricant Chemistry, Technology, Selection, and Design
Author: S.O.A. Rizvi
This unique ASTM manual is written from the perspectives of both chemists and lubrication engineers, and therefore places equal emphasis on the chemistry and the formulation of lubricants. It includes additive technology used in petroleum exploration, refining, and fuels.
Manual 59 complements ASTM’s Manual 37 (see column to left) by integrating useful information to lubrication engineers.
665 Pages (2008); Hard Cover: 8.5” x 11”; Price: $197
ISBN: 978-0-8031-7000-1; Stock #: MNL59

New!

Copper Strip Corrosion Standard for Petroleum
This adjunct is the reference standard for use with ASTM Method D310 in the detection of the corrosiveness of copper to automotive gasoline, aircraft engine fuels, farm tractor fuel, cleaner solvent, diesel fuel, fuel oil (distillate) and certain other petroleum products. Also applicable for ASTM Methods D1661 and D1638.
Price: $214; Stock #: ADJD130

New Edition!

Significance of Tests for Petroleum Products: 8th Edition
Editor: S. J. Rand
Get the latest analytical procedures and specifications for a vast range of petroleum products. All tests are designed to measure product properties so that the “quality” of that product may be described. This book also cross-references and lists ISO, API, OECD, JP, EPA, DIN, and EPS methods, where applicable.
Twenty-four comprehensive chapters address sampling techniques, fuel oxygenates, automotive engine oils, lubricant base fluids, and more.
New to this edition:
• All chapters have been updated to reflect new specifications and testing methods.
• New chapters have been added to more fully reflect today’s new products and new test procedures: Biodiesel Fuels, Synthetic Fuel Oils, and Determination of Inorganic Species in Petroleum Products.
• With the exception of Chapter 21 on Environmental Testing of Petroleum Products, all test procedures and protocols have been essentially unchanged since the last edition.
350 Pages (2010); Soft Cover: 8.5” x 11”; Price: $117
ISBN: 978-0-8031-7001-8; Stock #: MNL1-8TH

Adjusted to D2520-08 on CD-ROM
Density/Weight/Volume Intraconversion
These intraconversion tables are applicable to all crude oils, petroleum products, and petrochemicals. These standards are intended for application to bulk liquid quantities.
Part 1—Conversions of API Gravity at 60 degrees F
Part 2—Conversions for Relative Density (60/60 degrees F)
Part 3—Conversions for Absolute Density at 15 degrees C
Single User* $240; Stock #: ADJI250CD2
* Individual Workstation

Best Seller!

Author: R.A. Kishore Nadkarni

Over 200 new test methods have been added!

The essential elements of all standard analytical tests used to characterize petroleum products and lubricants are now available in one unique volume.

Brief descriptions of the 576 tests described, include principles involved, test summary, advantages, limitations, and test precision data. Where available equivalent tests from IP, ISO, JIS, DIN, and AFNOR are also referenced. The test methods covered involve a variety of analytical techniques to identify and/or quantify over 220 chemical and physical properties of crude oils, gasoline, reformulated gasoline, lubricating oils, additives, transmission fluids, lubricating greases, gear oils, aviation fuels.

STP 1523
Quenching and Cooling, Residual Stress and Distortion Control
Editors: M.Narazaki, L. de C.F. Canale

Fifty-nine peer-review papers focus on various issues related to quenching and cooling, residual stress, and distortion control of ferrous and non-ferrous metals.

Topics cover:
- Heat Transfer
- Modeling and Simulation
- Distortion and Residual Stresses
- Property Predictions
- Quenchants and Quenching
- Gas Quenching
- Hardenability
- Cooling Curve Analysis Methodologies
- Dilatometric Analysis

1,096 Pages (2010); Hard Cover: 6" x 9"
Price: $242
ISBN: 978-0-8031-7509-9; Stock #: STP1523

UOP Laboratory Test Methods

ASTM International is the exclusive, worldwide distributor of UOP’s extensive series of laboratory test methods. This set of analytical methods and procedures supports the installation, implementation, maintenance, and safe operation of the UOP-licensed processes. It is a valuable resource in helping to analyze feedstocks and various process streams, supplementing ASTM, API, and other important industry standards and publications.

2-Year CD-ROM Subscription: $4,375
Stock #: UOPCD
1-Year Individual Online Subscription: $2,780
Stock #: UOPONLINE

More Online!

As an added bonus, any new ASTM property management standards will also be automatically available to you.

All aspects of personal property management, including systems for the management of industrial, Federal, State, and local government personal property, as well as educational and medical institution property assets are covered.

Specific topics include all aspects of personal property management from determination of needs and initial acquisition through final disposition.

Annual Subscription: $99

Greatly Expanded Edition!

DS5IF

Developer: B.K. Harrison

The latest version of the CHETAH® program is a vital resource for predicting both thermochemical properties and certain reactive chemical hazards associated with a pure chemical, a mixture of chemicals, or a chemical reaction. New features include:

• Calculation temperature increased from 1500 K to 4000 K
• Adiabatic temp-rise calculation for decomposition reactions
• Database of about 900 common species in aqueous solution
• Database of liquid and solid Benson groups
• And much more!

Bonus: Conveniently packaged with CHETAH® 9.0 is the current version of the Chemical Reactivity Worksheet by NOAA.

• Compliance with Public Law 101-592 (Fastener Quality Act)
• Quality Manual Guidelines for ISO 9001
• Application of the Malcolm Baldrige National Quality Award Criteria
• Quality management system design
• Document control
• Performance through total quality management. Nine

New Edition!

Manual 7

Manual on Presentation of Data and Control Chart Analysis: 8th Edition

Get the latest information on statistical and quality control methods, as well as recommendations for their application in various types of engineering work. It addresses the three main objectives in gathering engineering data:

• Physical constants and frequency distributions
• Relationship between two or more variables
• Causes of observed phenomena

Part I discusses frequency distributions, simple statistical measures, and the concept of interpreting the essential information contained in a single set of observations. Part 2 examines the problem of expressing plus/minus limits of uncertainty for various statistical measures, together with some working rules for rounding-off observed results to an appropriate number of significant figures. Part 3 covers the control chart method for the analysis of observational data obtained from a series of samples, and for detecting lack of statistical control of quality.

Part 4 discusses material on measurement systems analysis, process capability, and process performance. This important section is included to help evaluate the measurement process before any analysis of the process is begun.

ASTM Standards on Precision and Bias for Various Applications

Get instant access to 80 of the latest ASTM standards to:
• Evaluate the precision of test measurements
• Develop in-house precision and bias for test methodology
• Improve quality control systems
• Stay current with the latest statistical terminology

Annual subscription includes revisions made throughout the year.

New Product on CD-ROM!
A Compilation of ASTM and U.S. EPA Standards for Cyanide Analysis, Sampling and Mitigating Interferences

This unique collection features 12 of the latest ASTM standards for the analysis of cyanide in water, solids, and air. Seven of these standards are being proposed by the U.S. EPA for compliance monitoring in 40 CFR Part 136 under the Clean Water Act.

In addition to D2036, which contains conventional test methods to measure cyanides, the CD will include D7351, a new distillationless method for total cyanide, along with D7365 for sampling and mitigating interferences in water samples. It also includes seven EPA test methods to measure cyanide in water and solid waste samples.

CD-ROM (2010)
Price: $69

Manual 56
Guide to Friction, Wear, and Erosion Testing

Author: K.G. Budinski
No other book provides the details of how to conduct tribotests, including their implications, how to avoid pitfalls, and which are most useful. This manual describes the many manifestations of friction wear and erosion and suggests specific tests that can be used to address problems.

Important features:
• Describes 112 ASTM standards that apply to tribology problems
• Contains schematics on 154 tribotesting devices
• Contains more than 100 charts and line drawings presenting test results and trends
• Touches on every aspect of tribotesting
• And much more!
141 Pages (2007)
Soft Cover: 8.5” x 11”; Price: $77
Stock #: MNL56

STANDARDIZATION NEWS, the official bi-monthly magazine of ASTM International, is the only publication that provides you with a complete picture of ASTM’s standards development activities.

WITH EACH ISSUE OF SN, YOU CAN:
• Keep up to date on the latest activities of ASTM standards writing groups
• Discover ways to enhance your use of ASTM’s standards development tools
• Find out what industry and standardization experts have to say in SN’s feature articles focusing on standardization issues
• Learn more about participation on task groups and subcommittees that write standards to meet your needs
• Learn more about ASTM products
• Plan to submit papers for or attend symposia, conferences, and workshops sponsored by ASTM and other standards writing organizations
• Request information on a wide variety of advertised new technical products, equipment, and literature

Advancing Technologies in 2011

The ASTM International Standards and Engineering Digital Library

The ultimate online technical library!

Instant Access
Get instant access to ASTM standards, technical papers, chapters, and books.
• 12,000+ ASTM Standards
• 1,500+ E-books
• 50,000 Technical Papers and Chapters

Flexible Purchasing Options
• Standards
• Complete ASTM library of standards, books, journals, and papers
• Entire library of STPs
• Entire library of Manuals and Monographs
• Entire library of Journal papers
• Individual papers, chapters, or books
